A ONE-minute read!

DSIS Solutions Limited are an IT solutions business located in Cheshire who are specialists in supporting and servicing the IT needs of the educational sector in Primary Schools, Secondary Schools and larger further education campus sites.

DSIS work closely with our clients to offer a simple and effective resource to ensure you get the maximum return from your IT with the minimum of hassle.

“You are only as good as your customer’s say you are!” (And how long they are with you) and we would be delighted to put you in touch with our existing customers to discuss the quality and ease of doing business with **DSIS Solutions**.

Whether you are considering a complete IT infrastructure overhaul, looking at changes within your current set up or considering technologies such as Wireless, Voice over IP (VOIP), IP-CCTV, IP - mobile users or constructing a new computer suite we would welcome the opportunity to bring our experience and capability to work with you.

DSIS Engineers and Technical Staff have undergone Enhanced Criminal Records checks, carry a photo ID card and wear branded uniforms.

Give us a call on **01925 759634** or send an email to **info@dsissolutions.co.uk** to discuss whether **DSIS** can support you with any of your IT infrastructure needs.

Yours Faithfully

Paul Widdrington
Technical Director
